

CareTech, two part split frame QYzwkD/YzwkBsd

BOS Best Of Steel has developed a double acting door frame specifically for the English and Irish markets which can be used in the hospital sector.

Advantages:

- Door leaf can be opened in both directions
- Frame has an adjustment area for the wall of -0 to +10mm
- For subsequent installation in finished walls
- Including stainless steel striking plate for all lock types
- With provision for concealed pivot in headpiece
- With provision for impact profile as emergency release

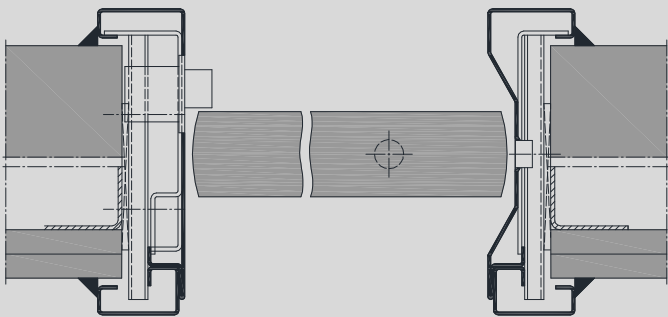

Illustration for stud and brick walls.
